

# February

## This week in...**Science**

We began a new unit in Science this week. We are studying light waves. Students used pinhole boxes to observe objects with and without light. We also brainstormed questions we have about light. Students had great questions, and we will hopefully learn the answers to our questions as we study light!

---

## This week in...**Literacy**

Students analyzed setting this week. When reading or listening to reading, students focused on the setting of the story. The setting can provide important details to help us better understand a story.

Ask your child about...

1. The Doubles Rap
2. Our pinhole box experiment
3. Art Class projects

## Don't Forget

NFV will run the early dismissal schedule during conferences.

Early Dismissal on February 28, March 1 & March 2.

## Important Dates

Tuesday, February 28 & Thursday, March 2: Parent/Teacher Conferences

Friday, March 3: NO SCHOOL

Tuesday, March 14: Field Trip to Luther College for the play: *A Brown Bear, A Moon, and A Caterpillar*

## Conferences!

I look forward to talking about your child's growth and progress this next week at conferences!
