

# March

## This week in... **Science**

Students continued to study light waves. We used a slinky to mimic the movement of light waves and talked about the vocabulary word *illuminate*. We also thought of different light sources that illuminate various objects and places in our world.

## Coming up in... **Science**

We will have some special visitors in our classroom beginning after Spring Break! We will begin to study the life cycle of animals. We will closely study how offspring are alike and different from their parents.

## This week in... **Literacy**

Students worked with words ending in y. Y can say "i" or "e" at the end of words. Some words we studied: shy, fly, berry and merry. Look for these words when reading with your child!

## Important Dates

Tuesday, March 14: A Brown Bear, A Moon, and A Caterpillar at Luther College

March 20-24: Spring Break!  
NO SCHOOL

Don't forget about our Dr. Seuss celebration next week! 1<sup>st</sup> Graders can wear stripes on Monday if they would like.

## Spelling

We will take a break from spelling over Spring Break. Your child will not bring home a new spelling rule next week!
